

# Arts Assessment For Learning

---

VISUAL ARTS — 7<sup>TH</sup> GRADE

## **SYNOPSIS: COLLAGE - SELF-PORTRAIT**

My 7<sup>th</sup> grade class started with self-portrait drawings, painted strips of color, arranged the *tesserae* on their drawings, and engaged in on-going peer assessment throughout the project using a rubric and feedback forms to inform their revisions. The quality of their feedback improved throughout the project and students became invested in the development of one another's projects.

### **Inquiry:**

*Does a process of peer and self-assessment that uses independent goal setting improve students' painted self-portrait collages?*

### **Strategies:**

Peer and self-assessment using a rubric and feedback forms
