

Arts Assessment For Learning

VISUAL ARTS — 5TH GRADE

SYNOPSIS: MURAL DRAWINGS (ANIMALS)

In this collaborative art project, my 5th grade students worked in teams to create drawings based on prehistoric cave art. We co-created a *Good Drawing* Rubric and used it in a peer and self-assessment process. The process fostered collaboration and independence, as well as helped them create impressive craypas drawings.

INQUIRY:

Do group critiques using a rubric, worksheet and prompts support improvement and innovation in collaborative work?

STRATEGIES:

Peer and self-assessment using a co-created rubric and Feedback Sheet
