

# Arts Assessment For Learning

---

VISUAL ART — KINDERGARTEN

## **SYNOPSIS: PAINTING: A RAINBOW**

Early learners are challenged by painting technique, particularly painting with precision and control. I wanted to see if peer assessment using a visual rubric could help kindergarten students improve these skills. I discovered that with a child friendly protocol and visual rubric my students could give feedback and achieve an “I Got It”!

### **Inquiry:**

*Do peer and self-assessment using a visual rubric help improve students' precision and control while painting a rainbow?*

### **Strategies:**

Peer and self-assessment with a visual rubric
